OVERVIEW

The ISO 22301:2019 Lead Implementer course equips participants with the knowledge and practical skills to implement, manage, and continually improve an effective Business Continuity Management System (BCMS) that ensures organizational resilience and uninterrupted operations during disruptions.

QUALITY STATEMENT:

We are committed to provide our customers with excellent services that exceed their expectations by continually improving our business strategy, processes, systems, personnel and environment at all time

KEY OBJECTIVES

- Understand ISO 22301:2019 Requirements: Provide participants with a comprehensive understanding of ISO 22301:2019 and the core principles of Business Continuity Management Systems (BCMS).
- Develop Business Continuity Implementation Skills: Equip learners with the knowledge to establish, implement, operate, and maintain an effective BCMS that supports continuity during disruptions.
- Strengthen Organizational Resilience & Continual Improvement: Enable participants to monitor, review, and continually improve business continuity processes using the PDCA approach, ensuring alignment with strategic business objectives.

WHAT YOU WILL LEARN

In this ISO 22301 training, you will learn how to plan, implement, and manage a Business Continuity Management System (BCMS), perform business impact and risk assessments, develop continuity and recovery plans, and apply the PDCA model to continually improve organizational resilience during disruptions

BUSINESS CONTINUITY MANAGEMENT SYSTEM (BCMS) FUNDAMENTALS

Understand ISO 22301 terminology, principles, and key elements of business continuity management. Learn the Plan–Do–Check–Act (PDCA) approach and how it drives continual improvement within a BCMS.

PROCESSES, INTERCONNECTIONS AND IMPLEMENTATION SKILLS

Explore business continuity processes and their interdependencies, and gain practical knowledge to design, implement, and manage a BCMS aligned with ISO 22301 requirements.

ACHIEVING COMPETENCE AND CERTIFICATION

Develop the expertise to monitor, audit and continually improve a BCMS to meet international best practices. Prepare to achieve the Business Continuity Management System Implementer certification and strengthen your professional credibility.

TARGET AUDIENCE

Business Continuity Managers

Risk and Compliance Officers

Internal Auditors & Implementers

IT Disaster Recovery Professionals

ISO/Management System Consultants

Professionals Preparing for
Certification
